

**STEEL SHIELDING SYSTEM - UPGRADED TWIN KNIFE DOOR****GLOBAL HYPER-SHIELD SYSTEM**

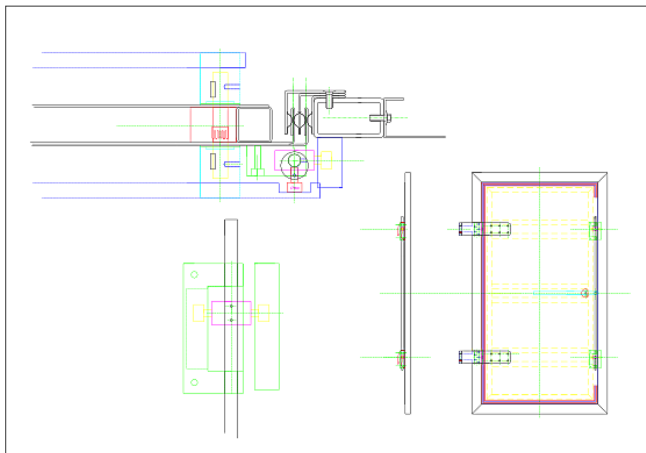

The Global Hyper-shield system has augmented Faraday Cage performance.

The twin knives are made by double folding the door skin at each edge, the knife is a double fold safety edge made from 2mm galvanised steel forming twin 4mm knives (8mm of door knife thickness in total).

**SYSTEM PERFORMANCE**

The performance of this system will give:

- 82dB @10KHz
- >-110dB @100KHz
- >-130dB @1GHz
- >-105dB @18GHz and 40GHz

*All interfaces have roller bearings for easy open/close operations*
