

WEDGE PYRAMID ABSORBER**SYSTEM FOR COMPACT CHAMBERS**

Wedge absorbers give around 20% more Anechoic performance than full peak absorbers at frequencies below 1GHz, due to greater mass.

The microwave performance is excellent with a return loss of -40dB @ $8 \times \lambda$.

The Global EMC 'wedge' pyramid absorber represents exceptional performance in compact chambers.

Note: This product fully complies with NRL 8093 parts I,II & III Fire safety standard.

Part No	H mm	Weight KG/M SQ	Return Loss (-dB) Normal Incidence						
			50	100	300	500	1000	5000	10000
